

Company name:	Itox Health
Product/service:	iFIT™
Version:	2.21.05
Components:	N/A
Date of reapproval:	6 September 2023
Date of first approval:	20 August 2020
Valid until:	Valid for three years from the date of reapproval
Certificate reference:	5012345000107078

The product or service detailed above has been checked by GS1 UK and has met compliance with the following GS1 standards:

- **GS1 Identification Keys**

- **Locations:** Global Location Number (GLN), GLN Extension Component
- **People:** Global Service Relation Number (GSRN)
- **Assets:** Global Individual Asset Identifier (GIAI)
- **Returnable assets:** Global Returnable Asset Identifier (GRAI)
- **Documents:** Global Document Type Identifier (GDTI), GDTI serial component

- **GS1 data carriers**

- **Barcodes:** GS1-128, GS1 DataMatrix
- **EPC/RFID**

GS1 UK has approved this product following a defined and consistent process to ensure conformance to the latest relevant published GS1 standards.

Further details of the product's capabilities, as tested against each of the appropriate GS1 standards, are included in the appendix of this public report.

Please note: the approval process does not guarantee that every application or usage of the product/service detailed above will result in GS1-compliant outputs. Factors affecting this could include user-error, data used and any interfacing software and hardware.

Appendix

Supporting information:

Locations
Companies/locations can be identified using a Global Location Number (GLN)
Physical sub-locations can be identified using Global Location Number Extension Component
People
People/patients or care givers can be identified using a Global Service Relation Number (GSRN)
Assets
Assets can be identified using a Global Individual Asset Identifier (GIAI), Global Returnable Asset Identifier (GRAI) and/or GRAI plus serial component
Documents
Documents can be identified using a Global Document Type Identifier (GDTI)
Specific documents can be identified using a GDTI and serial component
Barcodes
The product can extract GS1-compliant data from GS1-128 barcodes
The product can extract GS1-compliant data from GS1 DataMatrix barcodes
The product can encode GS1-compliant data into GS1-128 barcodes
The product can encode GS1-compliant data into GS1 DataMatrix
EPC/RFID
The product can extract data from GS1 EPC tags
The product can encode data into GS1-compliant tags
Interfacing
The product can include GS1 Identifiers in data shared with 3rd party systems

Notes: as part of this approval process, GS1 UK have made the following notes or recommendations regarding the product:

1. GS1-128: GS1 barcodes are provided as a service rather than by the iFIT™ solution
2. GS1 DataMatrix: GS1 barcodes are provided as a service rather than by the iFIT™ solution
3. EPC/RFID tags are provided as a service rather than by the iFIT™ solution
